

EntraSyncTool Readme

This will sync AD accounts to match Entra accounts.

```
-----  
EntraSyncTool.ps1      Computer:LP-2025 User:      PSver:7  
  
This will sync AD with Entra, mostly for LDAP purposes.  
This program considers Entra to be the read-only source on which AD depends.  
All changes will be made in AD only.  
  
- Missing Entra users will be added to AD  
- Extra AD users will be deleted  
- Use the CSV to provide a list of users to exclude from this process  
  
CSV: EntraSyncTool.csv (21 entries with emails to exclude)
